

Transitioning to a new plane - Some tips

A lot of us look forward to checking out in a new plane - sometimes bigger/faster, sometimes lower/slower, and sometimes just different. There are some common tricks to transitioning to any new aircraft, and moderator CFI Chris Hope can provide some guidance to make your transition go smoother and safer. Chris is a five-time master CFI who has checked out in over 80 different aircraft models, from gliders to four-engine jets, in his career and knows a thing or two about successful transitions.

Directions: Stroud's is on 135th Street, one traffic light west of highway 69 Lamar and Metcalf. The venue is just behind the Von Mauer Department store and next to Sheels Sporting Goods building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
